

About Us

Founded in 1955, TOUEI KENZAI INDUSTRIAL is the one and only trading company in Japan, specialising in stone related tools and supplies. We handle various products ranging from industrial tools such as diamond tools, stone polishers, to adhesives and chemicals for natural and engineered stones, and also to cemetery items such as stainless flower vases, incense stick holders, and candle holders. We also develop original tools or items of our own based on our knowledge and experience in this industry- our best known and most popular product being the pneumatic water polisher WS-5, first developed in 1968.

Worldwide Sales and Delivery

Interested in purchasing stone related tools and supplies that are sold in Japan, but wondering how to have them shipped to overseas destinations? If so, feel free to contact us at our email address touei-info@touei.ne.jp or send us an enquiry form from our website <http://www.touei.ne.jp/>. As an official distributor of various manufacturers in Japan, we are happy to arrange orders and shipping to your country.

STONE Magic SERIES

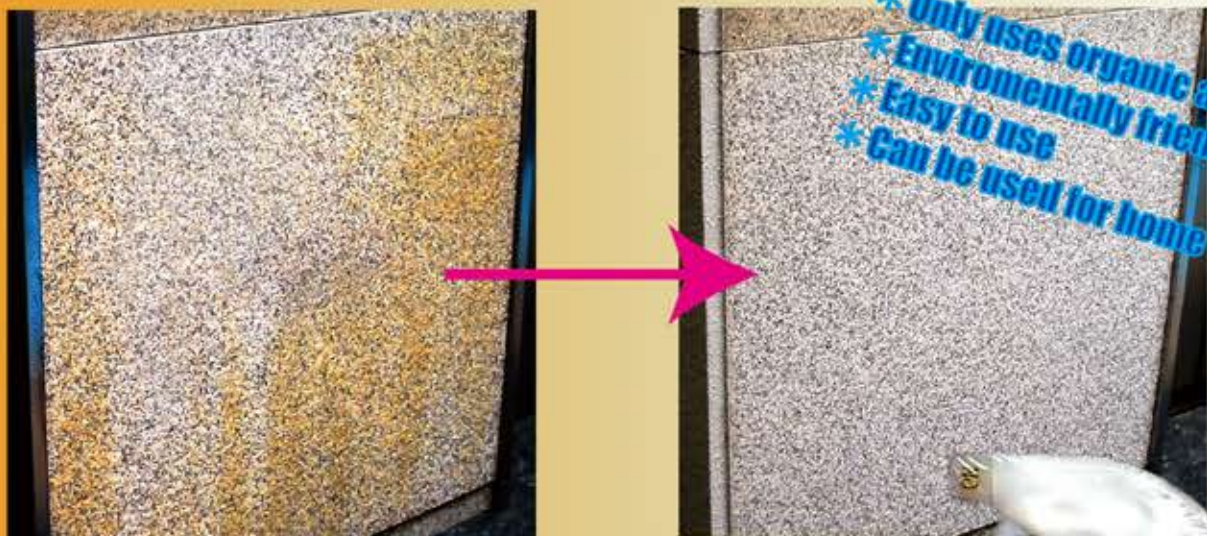

★ ★ ★
ECO FRIENDLY
★ ★ ★

FIRST IN UNITED STATES

STONE Magic SERIES

Unlike traditional cleaners that include strong chemicals such as hydrochloric acid, all products in Stone Magic Series are developed based on simple organic acids found in everyday food. They of course do not require any neutralising agent, i. e. an other chemical often used after the application of a strong cleaner to protect the stone from harmful acids. Furthermore, they are easy to use, safe for household uses and Eco-Friendly.

- * Only uses organic acids
- * Environmentally friendly
- * Easy to use
- * Can be used for home

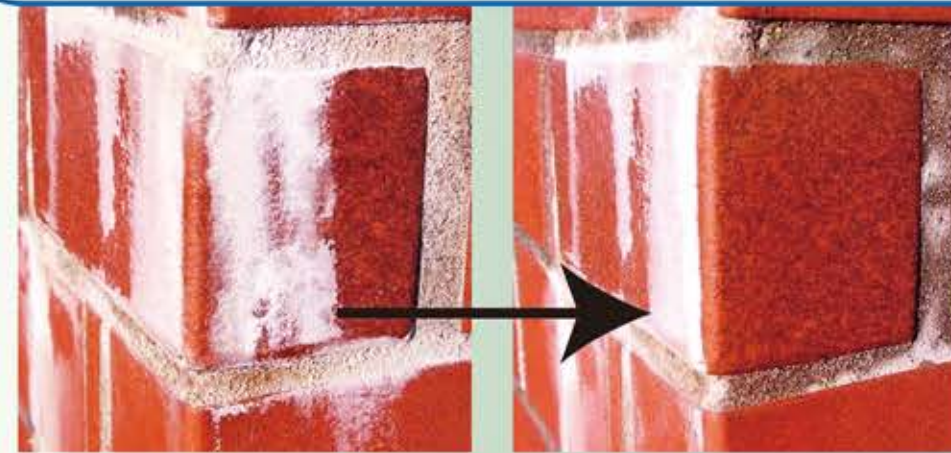

Magical Granite Cleaner is uniquely formulated to reach deep inside granite then quickly and efficiently remove dirt, light rust and light efflorescence buildup. Dirt, rust, and efflorescence are quickly and easily removed from granite with little effort and without damage or scratch to the stone itself. Furthermore, Magical Granite Cleaner do not discolor the stone or give it an unnatural white color.

Magical Granite Cleaner

Magical Efflorescence Cleaner

Magical Efflorescence Cleaner is a specially formulated cleaner designed to dissolve ugly white buildups of calcium on stone and tile. It is tailored to dissolve efflorescence without damaging the surface- just spray on and watch as the buildup foams and bubbles as it dissolves, releasing only non-harmful CO² gas.

Magical Rust Remover

Magical Rust Remover is specially designed to pull out and dissolve deep rust stains from stone, tile and metal. It is gel-type so that it can be applied to both horizontal and vertical surfaces, making it easy to coat those hard to clean areas. After covering the affected area, wait until it turns purple and then wipe off the gel.
