

MAGICAL RUST REMOVER

Net Quantity 400g

Feature

1. Composed of organic acid (lactic acid and citric acid), it is human-friendly and eco-friendly rust remover.
2. The color turns to purple when it reacts on rust.
3. You only need to wash the affected area with plenty of water after use.

The rust from the metallic floor mat reaches to the jointers of the tiles.

Apply this remover thinner to the rusted areas using the spatula. The color of the remover turns to purple right after the it was spread.

Wait for 5 minutes. Do not wash out while waiting.

Wash the clean agent with water, or wipe it with the wet towels.

The rust on the jointer is removed without damaging the jointer or the tile.
